love'em *purrfect* liver treats the *purrfectly* healthy way to treat your cat!

A message from Dr Marie Rowe. BVSc. MSc.
Co-founder of The Show'em How Much You Love'em Company
and creator of love'em *purrfect* liver treats,
with her pets Brevis, Jess and Percy the cat.

"As a Vet I am often asked by cat lovers to recommend a healthy and tasty reward they can give their cat as a special treat.

Knowing of nothing suitable in the market place that met my high standards of health and nutrition, I decided to create my own.

Using only the best quality Australian grown beef, pork and chicken liver, I have developed a special treat for cats that is low in fat, low in salt and has the real liver taste that will satisfy the most demanding of cats.

My company's promise to pet lovers everywhere is to develop products that enhance both the health of their pets and the enjoyment of pet ownership.

And as with all love'em products, you and your cat's satisfaction with love'em *purrfect* liver treats is unconditionally guaranteed - or your money back."

WOMBAROO

CAT MILK REPLACER

ANALYSIS

Minimum Crude Protein	40%
Minimum Crude Fat	29%
Maximum Fibre	0%
Maximum Salt	0.8%

INGREDIENTS

Whey protein, caseins, whole milk solids, taurine, vegetable oils, omega-3 and omega-6 fatty acids, vitamins A, B₁, B₂, B₆, B₁₂, C, D₃, E, K, nicotinamide, pantothenic acid, biotin, folic acid, choline, inositol, calcium, phosphorus, potassium, sodium, magnesium, zinc, iron, manganese, copper, iodine, selenium.

USING CAT MILK REPLACER

To make 1 litre of milk add 215g of powder to 400mL of preboiled warm water. Mix to a paste then make up to 1 litre with warm preboiled water and mix thoroughly. An electric whisk can be used for mixing. Can be refrigerated for one day or frozen for longer.

Hand Rearing: Success in hand-rearing kittens improves if they receive colostrum at birth. Feed **Wombaroo Impact Colostrum Supplement** to kittens that did not get colostrum from the queen. Keep kittens in a clean, draught-free environment at about 30°C. Warm Wombaroo to about 35°C. Feed from a bottle with teat every 2 hours for the first 3 days, reducing this to every 4 hours by the end of the first week. Stimulate kittens to defecate and urinate after each feed. During the second week reduce feeding to 6 hourly intervals. Encourage kittens to lap once their eyes are open and voluntary bowel motions begin. To avoid dehydration during periods of hot weather give kittens a drink of pre-boiled water between feeds. Always offer kittens drinking water once their eyes are open and they become mobile. Consult your veterinarian or breeder for particular advice about caring for your breed of kitten.

Growth: Kitten body weight should increase by 10 to 15g per day. Weigh kittens regularly to verify weight gains and to determine the volume of milk to feed. Overfeeding milk can cause diarrhoea so feed the suggested volumes in our tables.

Weaning: When kittens are about 4 weeks old they should show interest in solid food. To entice them to eat solids offer a small portion of specially formulated kitten dry food soaked in Wombaroo. Once they start to eat solid food continue to increase the solids and reduce the milk in their diet until they are fully weaned at about 8 weeks.

Golden Oldies

● CCCA Ch, GDGC, ACT TGC Rosepark Snowdrop

(lilac spay - born: 21/011996)

Snowie is the youngest member of Burmese beauties sharing our home and this will be her 16th Burmese Show and 10th as a Golden Oldie. She took the baton from our beautiful old chocie girls, Rosie and Beanie.

She started her show career as a 14 week old litter kitten (in a very active litter of 6 lilacs) in 1996, at the Cumberland Cat Show. These days she enjoys retirement and only comes out for the Burmese Show.

Snowie is a very sweet natured girl and her favourite pastime is sleeping, so much so she sometimes doesn't even get out of bed to say "goodbye, have a nice day", when we leave for work. Occasionally though she does wake to have a bite, a stretch and 'change beds' – what a life!

So for Snowie and all our Burmese family, its retirement at its best – a full pension, free medical, free housekeeping and a family that care!

Snowie is loved by Chris Buckley & Brenda Gorrie, and her furry family, Lilly (Mum) and Bil Bil (brother).

Golden Oldies

● **Db Gd, Ch. Novacastra Kiss Me Kate.**

(lilac spay born 27/01/2003)

My dear Katie is such a gentle soul and was a superb mum to her kittens. She liked to include me when her time was due, but now enjoys her life of leisure. Nothing suits her more than being cuddled on a lap and no matter where she seats herself, she always manages to find a 'pillow'. That may be your arm, a cushion, the edge of furniture or the raised side of a donut bed. A creature of comfort no less. Who can blame her! Here she is in our courtyard where she quite fancies a nibble of grass, keeping a close eye on the birds – and although nine, is still nimble enough to catch one if it's unwary – or ensuring the neighbour's cat keeps a respectful distance. There is no doubting who rules this roost!

I can't imagine what life would be without her.
